

Complete Scalable Video Management

Video Management Anywhere, Anytime. Built for Users.

Apps for every operating system. Cloud enabled.

DW Spectrum® IPVMS supports all major operating systems with the ability to link any system to DW Cloud™ for fast, reliable remote access.

Automated, Intuitive, Built for Users,

Installs in seconds, configures in minutes. Instantly usable for novices, operators, integrators, or developers.

Auto-discover devices from hundreds of manufacturers.

Discover and manage thousands of compatible video, audio and I/O devices. Set up a new system or replace any existing VMS in minutes.

s with the ability to ess. Camera as a Server Cloud Client Client Cloud SDK Mobile SDK

Open for developers. Integrate anything.

With an open Restful API, a suite of SDK's, and integrator-friendly tools like a built-in API generator DW Spectrum® IPVMS users can quickly integrate any 3rd party device or system.

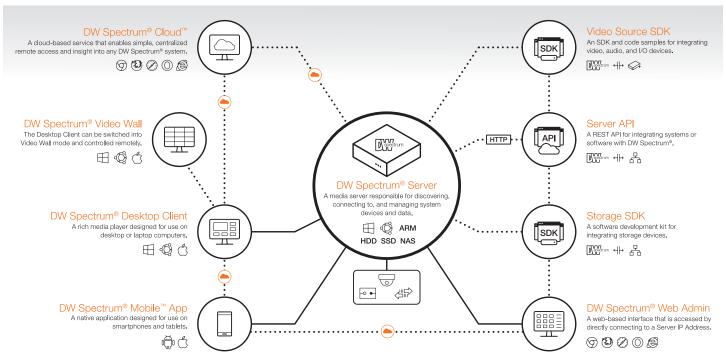

Simple. Reliable. Customizable.

DW Spectrum® IPVMS is an endlessly customizable IP Video Management platform that gives users the ability to create tailored networked video solutions for any type of project, for use by anyone, on any device.

Open architecture / cross platform.

Open Architecture

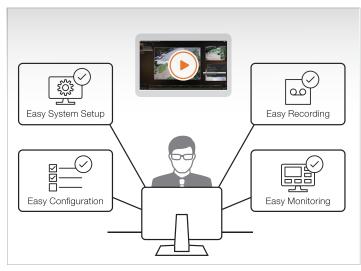

- Now with DW Cloud[™], connect from anywhere to share access instantly.
- Now with even more device support.
- Support of thousands of devices including cameras, encoders and I/O modules from leading manufacturers.
- Support cameras at every resolution.
- Built-in API allowing managed video to be accessed and reviewed by any willing 3rd party device.

Cross Platform

- DW Spectrum's recording engine runs on Windows® and Linux® Operating Systems.
- Client software is Windows[®], Linux[®] or Mac[®] compatible.
- Mobile apps are iOS® and Android® compatible.
- Web client is compatible with Google Chrome[®], Firefox[®], Safari[®] and Internet Explorer[®].

Interface is dramatically easier to use.

Highly refined GUI Viewing Video

- Seamless transitions
- Customizable camera layouts
- · Zoom, create regions of interest and enhance images

Searching Video

- Fastest video search in the industry
- Users can bookmark specific video segments

Downloading Video

- Multiple Download options
- Storage Backup

Enterprise features are standard.

- Custom User Role Management: create custom roles and share groups of hardware and layouts
- Multi-Server and Centralized Management
- Health Monitor: provides real-time insight of camera and server status.
- Video Storage Analytic: insight into storage requirements each camera is using in real-time and forecasts the impact of additional storage.
- Minimize Video Recording Loss with included Failover to protect video recordings from hardware failures and network interruptions.
- LDAP / Active Directory integration for enterprise wide user management is standard.
- Video Wall users can create and remotely manage remote monitors with just a few clicks.

Easy Configuration

Part of a complete end-to-end IP solution.

Although DW Spectrum® IPVMS is open to be deployed on a vast number of solutions. It is also part of DW's compete end-to-end IP solution, With

Blackjack® servers or VMAX® IP Plus™ NVRs and MEGApix® IP Cameras.

End-to-End Solution

Lifetime upgrades included / no annual agreements.

While other companies require annual maintence agreements, DW Spectrum® IPVMS system up-

grades are always available free of charge.

Scalable from one to thousands of devices.

The unified user experience for applications requiring one or thousands of cameras, it is deployed at thousands of locations worldwide, making DW

Spectrum® the industry's fastest growing VMS on the market today.

Enterprise Scalabilit

You choose your devices.

DW Spectrum® has applications for all major operating systems so our users are not limited by what device or operating system they choose to use on their desktops, mobile devices, rack mount servers, or even low-powered embedded devices.

Server	Client	Cloud	Mobile
A media server responsible for discovering, connecting to, and managing system devices and data.	A rich media player designed to view and manage a single DW Spectrum® system from a desktop or laptop PC.	A cloud-based service that enables simple, centralized remote access and insight into any DW Spectrum® system.	A mobile app designed for viewing DW Spectrum® system video and events while on-the-go.

Support and Resources to Ensure Our Success.

Exceptional Pricing and Service for Our Best Customers.

The Digital Watchdog® Partner Integrator Program is dedicated to those who sell the complete line of DW® video surveillance solutions.

What's in it for me?

With your annual purchase commitment, you receive:

- Partner Pricing Program
- Project Registration Program
- Training and Certification
- Demo Equipment

- Product Roadmap Meetings
- Co-Marketing Collateral (MDF)
- Extended Warranty
- Enhanced Tech Support Experience

See Program details for qualifications and inclusions at: portal digital-watchdog.com.
