CONTROL WIRING COURSES

SAVE \$50 ENROLL IN BOTH COURSES
FOR ONLY \$650!

Join SMC for our industrial controls courses designed to teach entry level personnel key concepts of industrial control wiring.

Students will become familiar with components of control wiring such as motor starters, push buttons, relays, terminal blocks, as well as identifying symbols and reading and understanding ladder logic drawing commonly used in control wiring design.

Through a combination of lecture and hands-on labs, product specialists will present a broad base knowledge for use in manufacturing plant facilities.

BASICS OF CONTROL WIRING

Wednesday, January 30

Understanding basic ladder logic and input / output devices. Two and three wire control circuits.

ADVANCED CONTROL WIRING

Wednesday, February 6

Understanding of soft start and VFD systems, Safety devices & Safety control circuits.

+ HANDS-ON

Throughout this course, you will have the opportunity to practice the skills you have learned through a variety of hands-on exercises.

COST

\$350 PER COURSE,
\$650 FOR BOTH.
PER STUDENT
Includes lunch
